## 2. Instructions

- \* All future contributions, including rollover amounts, will be invested according to the investment percentages you choose in Part 3. These elections may be changed through EQAccess on the internet at www.equitable.com.
- \* If your Employer's plan permits investments in both the Guaranteed Interest Option and the EQ/Money Market Fund, certain limitations may apply to assets transferred out of the Guaranteed Interest Option into any other investment option. Refer to your program summary before allocating any amounts to the Guaranteed Interest Option if your plan also permits use of the Money Market Fund.
- \* If your percentages total to more than 100%, any contributions received for that source will be invested 100% to the "default" option under your Employer's plan. If your percentages total to less than 100%, then the contributions received for that source will be invested according to your instructions, with the remaining amount invested in the "default" option. **Use whole percentages only.**
